CALCULUS AB – Summer Assignment

Mrs. Taylor

Online Calculus readiness test by MDTP:

Google: “calculus readiness test mdtp” and it should be the first item listed.

Keep retaking the test until you score 80% or better and print the results. Review where necessary.

My advice is to do this test right after school gets out until you get the 80%. Then, a couple weeks before school starts, get online and do the test again to refresh your memory.

**Your print out is due on the first day of school.** DO NOT forget to bring this paper.

---

**Chapter 1 assignment:** *(you will need to get a book checked out before you leave for summer)*

This homework will also be due on the first day of class but may be started at anytime during the summer. **All work must be shown neatly and completely.**

- Page 9 #1-45 odd
- Page 18 quick review #1-10, 1.2 exercises #1-65 odd
- Page 26 quick review #1-10, 1.3 exercises #1-39 odd
- Page 34 quick review #1-10, 1.4 exercises #1-41 odd
- Page 43 quick review #1-10, 1.5 exercises #1-49 odd
- Page 52 quick review #1-10, 1.6 exercises #1-37 odd

Working together is encouraged. However, be aware: **THERE WILL BE A TEST ON THIS MATERIAL ON DAY 1. BE PREPARED!**

---

**CALCULATOR RECOMMENDATIONS**

TI 83 or higher (We will be using the TI 84Plus Silver Edition in class.)

Warning: If you get a different kind of calculator, I cannot help you with it. Also, the programs I have for you to use on the AP test cannot be downloaded onto other calculators.
